The sixth transnational meeting was held in Brussels (Belgium) on the 7th of June 2023. All registered participants (Annex 1 * list) took part at the meeting. The meeting started on 7th at 09:00 a.m. and finished at 5:00 p.m. The planned program and schedule were fully observed.

7th June 2023

The meeting started with the welcome by the host partner (Sport and Citizenship) to all partners and representatives of the entities that are part the consortium. Eva Jacomet took the opportunity to provide some information about the event and the activities planned for Brussels on the 7th and 8th of June.

The meeting began with informing partners about the doubts raised regarding eligible expenses in the context of transnational meetings and in Brussels in particular. This is due to the fact that the headquarters of Sport and Citizenship are in France and not Belgium and this has been communicated.

The partners decided to look into the steps taken since the SPACHE application, until its approval, which resulted in the planning of the entire project, including the holding of the last transnational meeting in Brussels (Belgium). This meeting would be associated with the Multiplier Sport Event, including the final conference.

From this exchange of ideas, it was also decided to contact the former project coordinator Paula Nogueira, as well as the current Project Officer Alessandro Alonzo to clarify the situation.

Afterwards it was made the presentation of the special journal edition in paper version. The quality of the work and the excellent participation of all partners were praised.

The session continued with the discussion on the organization of the final conference, from the necessary logistics, presentations, and guests for the second-round table. In cases of doubt, it was also confirmed which representatives of each partner would present the respective pilot programme.

An attempt was also made to find out who the participants enrolled for the final conference would be and what their profile would be, in order to adapt the content of the interventions.

This exchange of ideas extended to the organization of the workshop with the aim of training participants to develop pilot programs relating sport to cultural heritage. The issue of schedules and the participation of partners in guiding participants was discussed, considering that the organization and scheduled schedules were adequate.

During the afternoon, the steps for organizing the final conference and the workshop were recalled, and some practical doubts about the event were clarified.

Then, José Martins, as coordinator of the consortium, considering the approach to the end of the project, summarized all the tasks and activities foreseen and their fulfillment. In this way, all the tasks assigned to each of the partners were analyzed individually.

New alerts were made regarding the reports (timesheets and dissemination reports) yet to be delivered, highlighting the deadlines determined for the delivery of the final reports (10th of July).
